

Mr. Peter Stone

Deputy Chief, CSIRO Ecosystem Sciences

BIOGRAPHY

Peter Stone is Deputy Chief of CSIRO Ecosystem Sciences, Primary Production, Land and Water. His work history includes farm management, food industry consulting, grain trading and agricultural research. For much of the last 10 years he has undertaken projects that tackle land use issues, drawing on a range of scientific, community and industry perspectives. He recently managed the Northern Australia Land and Water Science Review for the Prime Minister's Taskforce.
